Diploma In Telecommunication

Description

Diploma in Telecommunication Engineering is a Diploma level Telecommunication Engineering course. Telecommunication engineering or telecom engineering is a major field of electronic engineering. The work ranges from basic circuit design to strategic mass developments. Telecom engineering also overlaps heavily with broadcast engineering. Also, telecommunication is a diverse field of engineering including electronics, civil, structural, and electrical engineering, as well as being a political and social ambassador, a little bit of accounting and a lot of project management.

Course Content

Subjects of Study
Digital Systems
Digital Signal Processing
Fuzzy logic and Neural Networks
VHDL and VLSI
Digital Communication
Embedded System
Microprocessors and Micro Controllers and Microwaves
